

Tri-Mount Plastic Case

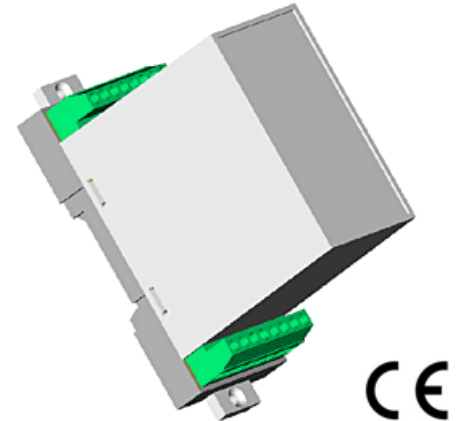

8 Pin / 11 Pin Socket Mount,
Rail Mount and Wall Mount

8/11 Pin Socket Mount

Rail Mount

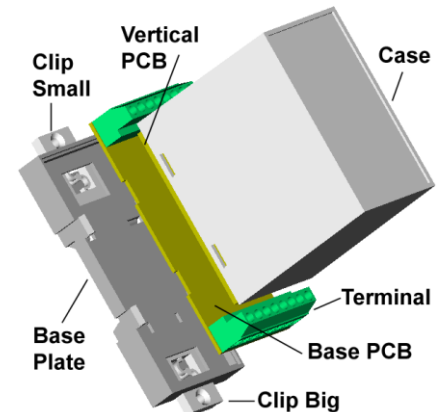

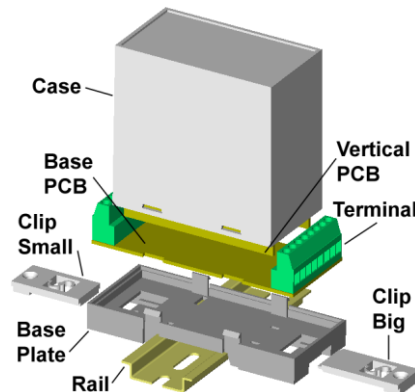

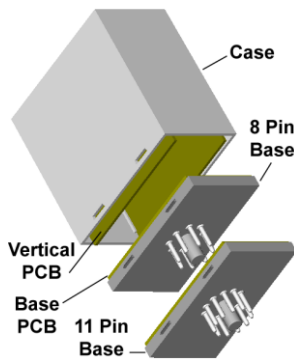

Wall Mount

Tri-Mount plastic modular case offers packaging to wide range of applications from automotive industry to home/building automation because of its unique three mounting feature of 8 pin / 11 pin, DIN Rail and Wall mounting. Typical applications are Relays, Timers, Transducers, Transmitters, Thermostat, Sensing and Monitoring Devices.

Tri-Mount Case having cover dimension 43 x 78 x 76 mm is designed to have snapped together verity of base plate that offers different types of mounting to the case. Case cover has PCB Guides for two vertical PCBs. Cover top can accommodate with spacer a horizontal pcb ideal for holding signaling devices / indicators and switches. One type of Base plate offers 8 pin / 11 pin socket mounting facility and other type of Base plate is designed to offer Rail / Wall mounting facility. Innovative designed pair of clips can be snapped in the holes of the Base plate at two different positions. Clips snapped in to outer hole position of base plate offers Wall mounting facility and by just changing it to inner hole position it facilitate case a rail mounting option. Case is designed for customer specific solution in Termination for rail/ wall mounting application. Case Base PCB has space on both sides for terminals. Customer can use our standard lug size terminal or can use standard commercial terminals of phoenix, weidmuller, Wago, Molex and other suppliers.

Tri-Mount Case Parts

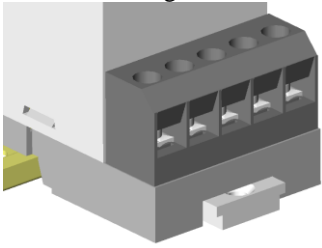

Ordering Information

TPC-43-03	Case with 8 Pins Base	TPC-43-10	Case with euro 5mm-16 Terminals plug-In
TPC-43-04	Case with 11 Pins Base	TTP-43	Top Cover
TPC-43-05	Case with Rail / Wall Base W/O Term.	TBP-43-8	Base Plate - 8 Pins (with Base PCB)
TPC-43-06	Case with 10 open Terminal (2x5)	TBP-43-11	Base Plate - 11 Pins (with Base PCB)
TPC-43-07	Case with 10 Shrouded Terminals (2x5)	TBP-43-0	Base Plate – Rail / Wall mount
TPC-43-08	Case with euro 5mm-16 Terminals (2x8)	TPP-43-0	Base PCB for Rail / Wall mount (Requires in initial prototype making)
TPC-43-09	Case with euro 7.5mm-10 Terminals (30A)	TPP-43-1	PCB for 8 / 11 Pin Base Plate

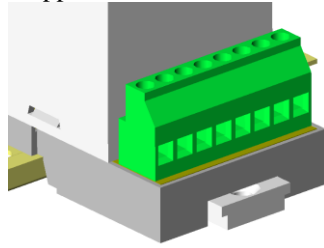

Din Plastic Instrument Cases • Din Rail Enclosures • Din Rail PCB Holders
Collet Knobs • Wire Products • PCB Card Guides • Plugs & Sockets • Terminals

Terminal Options

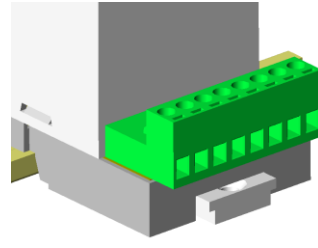

Tri-Mount Case is designed for customer specific solution in Termination. Case Base PCB has space on both sides for terminals. Customer can use our Open or shrouded Terminal fix type. Alternatively, can use standard commercial terminals of phoenix, weidmuller, Wago, Molex and other suppliers.

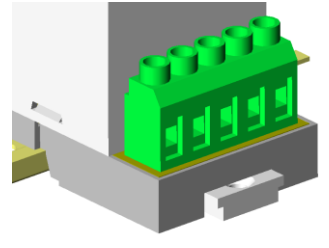

Std. Shrouded Terminal Block fixed type. Max 10 (5 x 2).

5 / 5.08 mm pitch Terminal Max. 16 (8 x 2)

5 / 5.08 mm pitch Plug-In Terminal: Max. 16 (8 x 2)

7.5 mm pitch for higher amp. Max. 8 (4 x 2)

Material :

Cover : ABS

Polycarbonate (FR - UL94V-0)

Base : ABS

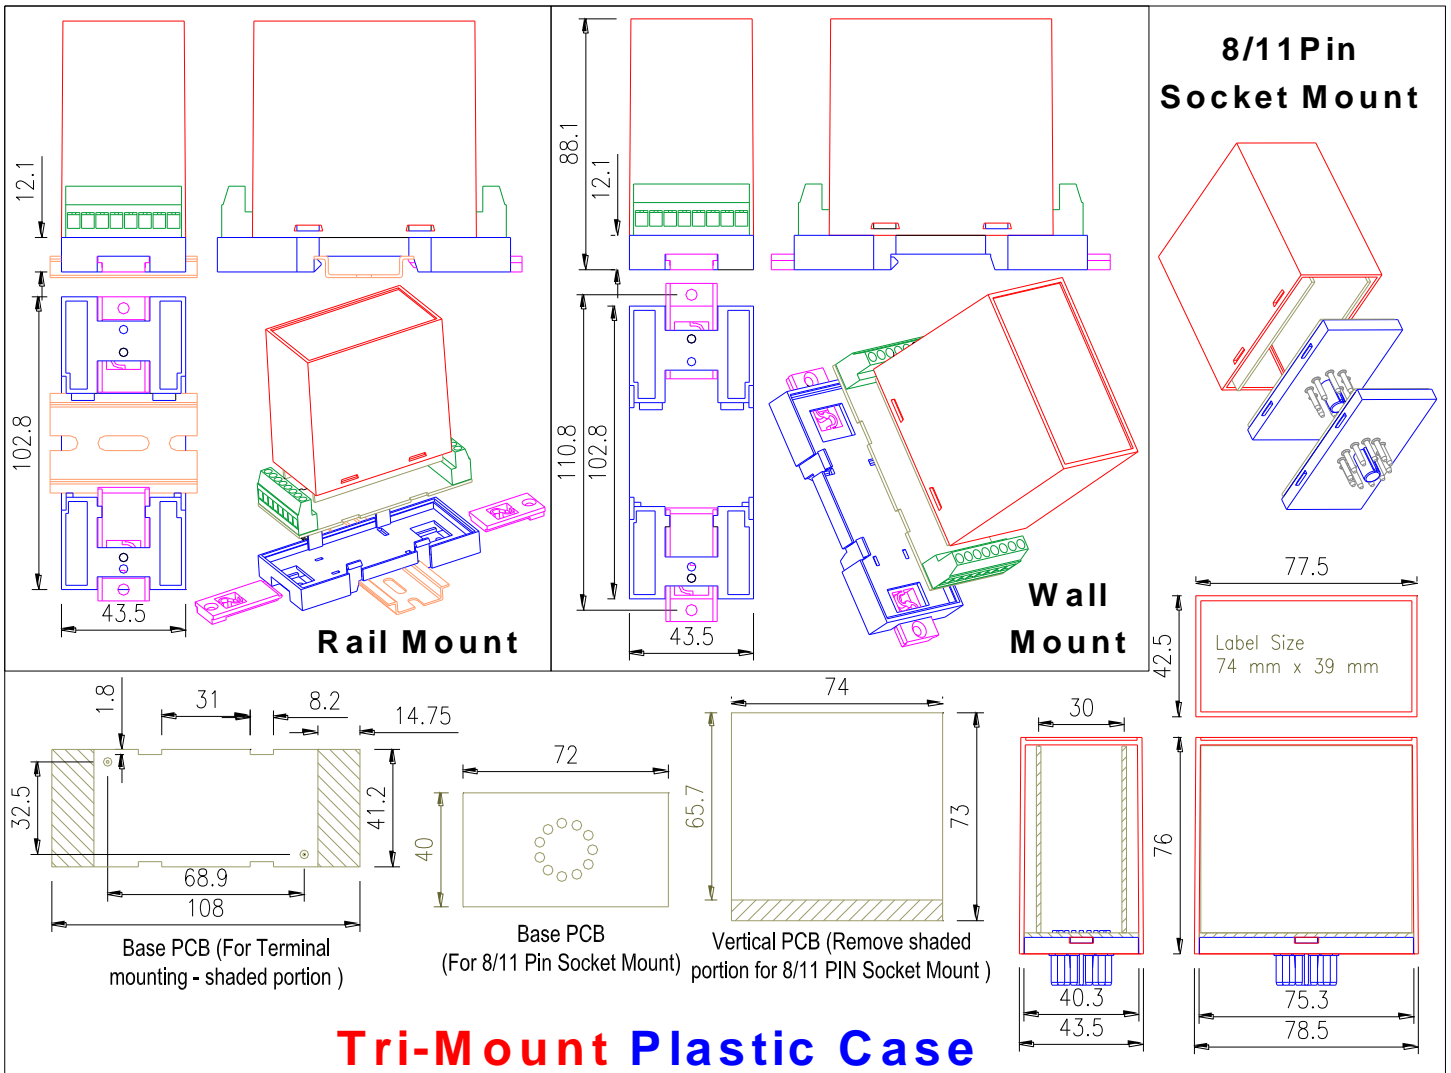

Noryl (FR - UL94V-0)

Color :

Cover : White

Base: Black
